SL-2000 FAST KIT

EVERYTHING YOU NEED NOW ALL IN ONE BOX:

SL-2000-P

FAST TUBES

BENEFITS TO THE DISTRIBUTOR:

Reduce Inventory SKUs - The all-in-one box includes our most popular duct smoke detector, SL-2000-P and our lightweight sampling tubes, the FAST tubes;

Increase Revenue - Never let a customer walk out without air sampling tubes because they didn't know the size needed - one pack will cover duct widths up to 5 ft;

Increase Margins - Lightweight material means lower freight cost;

Easier To Manage - No more need to store heavy and bulky metal tubes in your spaces! Conveniently packaged all-in-one box, standard size cartons are less prone to damage in transit and easier to store.

BENEFITS TO THE INSTALLER:

Walk Out With The Right Part, Every Time - Sampling tubes are combined with our popular SL-2000-P duct smoke detectors in a convenient all-in-one box. Sampling tubes are required by code and should cover 80% of the duct width;

Save Money - Never waste time and money going back to the store because you forgot sampling tubes! One pack of FAST tubes will fit duct widths up to 5ft, extra sections can be saved and/or added to longer assemblies for wider ducts and will fit all APC duct detectors: SL-2000, SM-501, RT-3000;

Easier To Handle - No more need to carry heavy metal tubes in your vans! Lightweight and no more nicks and cuts from sharp, dirty metal edges on regular tubes;

Designed and Manufactured in the USA - Like all detectors and accessories from APC.
