Simplified comfort control

Fast to set up and easy to use

All-in-one comfort solution

Minimal installation time

Easy integration with your BMS

Maximize comfort, minimize cost with a thermostat that's simple, efficient and takes minutes to setup

The TEC4000S Series provides a host of HVAC capabilities in one small product. Its sleek design and simple user display blend in to any space effortlessly, putting unparalleled comfort control at your fingertips. Its intuitive interface is powered by our precision control application that seamlessly integrates into your building management system. With advanced occupancy sensing options, this solution delivers energy savings for dynamic spaces such as hospitality or offices without compromising on comfort.

Simplify your comfort control and upgrade your building's efficiency with the TEC4000S Series thermostat.

IDEAL FOR:

Hotels

Offices

Schools

Condos

Strip malls

Sensor-based comfort control with faster commissioning

Simplified product selection and broad compatibility

- All-in-one model covers a wide range of applications, reducing complexity for buyers and installers
- Streamlines procurement and inventory management
- Configurable inputs/outputs and in-built sensor averaging make it suitable for challenging retrofits

Fast and intuitive setup

- Reduces configuration time by up to 80% with preset equipment profiles
- Configuration clone feature via USB cuts commissioning time by half for identical equipment setup
- Intuitive interface minimizes reliance on user guides and supports fast setup
- Reduces training requirements for technicians
- Wireless commissioning with the CWCVT adapter and CWA app streamlines setup

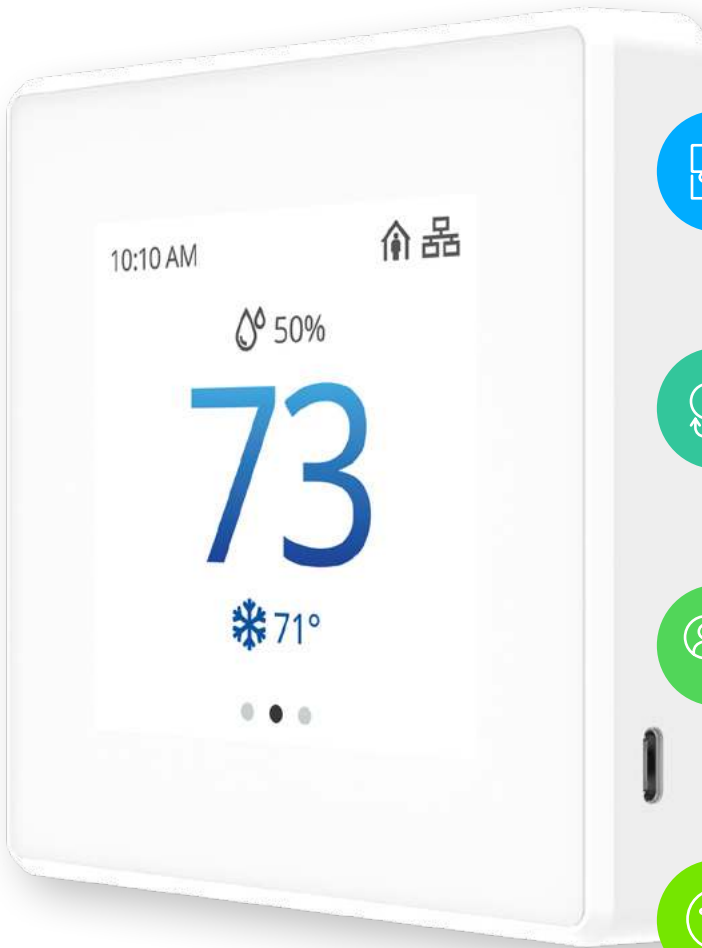

Designed for precision and ease of use

- Sleek, user-friendly design
- Hospitality mode prevents unwanted changes through an optional passcode lockout
- BACnet MS/TP provides remote monitoring and management capabilities, adding more options when paired to a Johnson Controls building management system
- Improves occupant comfort only when needed, maximizing energy savings

Designed for impact and simplicity

Simple selection choice

A single product that covers seven HVAC applications

Broad compatibility

Wall-mounted to a range of global sockets, with Johnson Controls powered integration

Save time and cost

Reduce configuration time up to 80% for identical jobs with presets and USB configuration cloning

Better user experience

Navigate the 4-inch color touchscreen with fewer taps, and give guests peace of mind with invisible occupancy sensors

Industry-leading accessibility

AAA WCAG compliant across 95% of its UI screens, ensuring maximum accessibility for end users and ideal for hospitality applications

Choose the **TEC4000S Series** – the thermostat that elevates comfort and efficiency in every space
